EDUCATION

Sivas Cumhuriyet University

Mechanical Engineer 2011

LANGUAGES

English – WallStreet English 13/20

HOBBIES

Cinema

Photography

Computer Games

Passionate mechanical engineer turned aspiring web developer. Equipped with a solid foundation in HTML, CSS, JavaScript, and React. Committed to lifelong learning, I've immersed myself in Harvard courses on C, Python, Django, while further honing my React skills through Meta and Patika.dev. With a knack for digital solutions, I led the successful integration of CRM/ERP systems and spearheaded the development of an e-commerce website in my previous role. Ready to embark on an exciting new career journey in web development.

TECHNICAL SKILLS

React, Redux, JavaScript, Python, Django, Flask, C, Firebase, GIT, API, Mongo DB, Tailwind CSS, Bootstrap, Material UI, Chakra UI, HTML, CSS

SOFT SKILLS

Problem Solving, Teamwork, Effective Communication, Creative Thinking, Decision Maker, Self Learning, Self Motivation

PORTFOLIO

- **Personal Website**

www.ersinm.com

<https://github.com/gorbadil/Portfolio>

React / React Timeline / E-mailJS / Tailwind CSS

I use my main framework for my portfolio page. For my project section, I integrate React Timeline and a Contact form with E-mail JS to enable sending emails to me. I use Tailwind CSS for styling and incorporate some Pure CSS for animations.

- **RealTime Chat App**

chatapp.ersinm.com

<https://github.com/gorbadil/ReactChatApp>

React / Redux / Firebase / Tailwind CSS

No authentication is needed, so everyone can try the page without providing any information. I use Redux for state management, integrate with Firebase for database and real-time functionality, and utilize Tailwind CSS for styling.

- **eCommerce Website**

ecommerce.ersinm.com

<https://github.com/gorbadil/eCommerce>

React / React Context / React Query / API / React Router / ChakraUI

I have developed an eCommerce website with integration of a dummy API using React Query. I have used React Context Hook for state management. React Router is employed for page routing, and styling is done using ChakraUI styled components.

- **SportCenter Website**

powerfull.ersinm.com

<https://github.com/gorbadil/powerfull-sport-center>

JavaScript / Bootstrap

I have created a landing web page for a sports center using Bootstrap and JavaScript. The web page includes a fully functional BMI calculator and integration with Google Maps.
